WELCOME TO THE FUTURE

Lavida means Life and living was the core focus in designing these exclusive free standing homes.

With high-end modern finishes and the low energy consumption design, the open-plan living spaces flow effortlessly into one another, inspiring a modern open lifestyle.

The doors and windows open up, inviting the outdoors in and allow for ample light to flow into the main living areas.

WHAT IS FUTURE LIVING

Future Living is a guarantee of quality and a stamp of reassurance that these homes are built with the future in mind. Each home brings together three distinct forward-thinking ingredients:

TECH

The future is convenience. Your home will be Smart Home Ready and Fibre connected from the day you move in. Now you can take back control of your space. It's a plug-and-play world where your house adapts to your lifestyle.

EFFICIENT

You deserve a home that works for you.

Efficient Price: LAVIDA boasts high-quality finishes at an affordable price.

Efficient Usage: The LAVIDA homes are fitted with low-consumption products like LED downlights, energy-saving electric geysers, gas hobs, and modern touch-light switches.

DESIGN

LAVIDA creates comfort through clever design, making the most of every liveable space.
